

Works Notification

October 2016

Gold Coast Light Rail Stage 2

PEDESTRIAN FOOTPATH CLOSURE

From Monday 24 October, the remaining section of the footpath running parallel to the Smith Street Motorway will be closed for approximately eight weeks, weather and construction conditions permitting.

The path will be closed to relocate underground public utility services as part of the Gold Coast Light Rail Stage 2 project works.

Alternative walking and cycling routes have been developed. The alternative route is approximately 800 metres further than the existing route. Signage will be located at strategic locations along the shared path and its entry points to notify users of detours.

These changes must be put into place to ensure the safety of pedestrians, cyclists and construction workers.

Work will involve:

- Excavation and trenching
- Relocating Gold Coast Water water main and connections
- Installation of conduits and concrete Energex electrical pits
- Concrete work including installation of formwork, pouring and concrete cutting.

Any impacts to utility services, such as communications, electricity, water or gas, will be managed by the service/utility provider and you will be notified of any service disruptions in advance.

What to expect:

- Increased levels of noise and vibration from machinery
- Construction vehicles
- Construction work will occur between 7:00am and 6:00pm, Monday to Saturday. Workers may arrive onsite by 6.00am to prepare for the day's activities.

Every effort will be made to keep disruption to a minimum. We appreciate your patience during this important work and will continue to update you as work progresses.

Project information

Gold Coast Light Rail Stage 2 involves the design and construction of a new 7.3km route which runs from Helensvale heavy rail station adjacent to the Gold Coast Line, then adjacent to the Smith Street Motorway to connect with Stage 1 at the Gold Coast University Hospital light rail station.

GoldlinQ's construction contractor CPB Contractors commenced construction in July 2016 and are committed to completing the project in time for the Gold Coast 2018 Commonwealth Games.
