

Works Notification

June 2017

Gold Coast Light Rail Stage 2

NIGHT WORKS - DEMOLITION WORK WITHIN EXISTING LIGHT RAIL TRACK
GOLD COAST UNIVERSITY HOSPITAL STATION, PARKLANDS DRIVE

From Monday 19 June 2017, a section of track leading to the Gold Coast University Hospital station will be demolished as part of the works to connect Stage 1 of the light rail network with Stage 2.

For the safety of workers and passengers, demolition of the existing track will commence on **Monday 19 June between 1.00am and 4.00am** each day and continue for five (5) days. This work must be undertaken when trams are not operating.

Once this section of track has been demolished, work will commence to install a new switch, which will allow trams to be guided from one track to another. This work will also be undertaken between 1.00am and 4.00am and continue for an additional five (5) days.

Work will involve:

- Jackhammering and concrete cutting from **Monday 19 June to Friday 23 June between 1.00am and 4.00am** each day.
- The use of an excavator to remove concrete sections.
- Installation of a new light rail switch and cabling.
- Construction of concrete formwork and pouring of concrete from **Monday 26 June to Friday 30 June between 1.00am and 4.00am** each day.

What to expect

- Increased noise levels and vibration from machinery, particularly during the demolition activity using jackhammers and concrete saws. Noise 'blankets' will be placed in and around the work area to assist with noise reduction.
- Dust generated from the demolition.
- Increased noise levels during the pouring of concrete.
- Lighting towers to light the work area.

Every effort will be made to keep construction impacts to a minimum. We appreciate your patience during this important work and will continue to update you as work progresses.

Contact the project team

If you have any questions or would like to register for more information, please contact the CPB Contractors Project Team on **1800 425 799*** or email gclrstage2@cpbcon.com.au. Visit www.gclrstage2.com.au anytime for more information and updates.

Project information

Gold Coast Light Rail Stage 2 involves the design and construction of a new 7.3km route which runs from Helensvale heavy rail station adjacent to the Gold Coast Line, then adjacent to the Smith Street Motorway to connect with Stage 1 at the Gold Coast University Hospital light rail station.

GoldlinQ's construction contractor CPB Contractors commenced construction in July 2016 and are committed to completing the project in time for the Gold Coast 2018 Commonwealth Games.
