

Underground Services Upgrades

Works to upgrade waste water services along the Gold Coast Highway, between the Sundale Bridge and Admiralty Drive, have begun.

Construction continues inside the site compound at Proud Park and will soon commence along the eastern side of the Gold Coast Highway across Waterways Drive and within the construction area along the western side of the Gold Coast Highway.

Rescheduled nightworks:

Nightworks to upgrade services have been rescheduled to commence from Thursday 13 September 2012 . This work will be undertaken for three weeks at night to minimise the impact on traffic.

- Nightworks to upgrade underground service crossings across the Gold Coast Highway and Waterways Drive will be required as part of these works. These will be undertaken in stages to maintain traffic flow.
- Temporary work areas will be contained by safety fencing.
- Temporary lane closures and traffic redirections will occur. Motorists are asked to pay attention to signage.
- During night works vehicles will use “quacker” (quieter) style reversing alarms to reduce noise.
- Light towers will be placed to limit glare to nearby residences.
- Night work will be carried out between 6.30pm and 6.30am, Sunday to Thursday.

We apologise for any inconvenience and thank you for your patience during construction.
