## Underground services upgrade

From Monday 17 December 2012, works to upgrade and relocate services will begin along the eastern and western sides of the Gold Coast Highway between Queensland Avenue and Victoria Avenue.

## Traffic changes:

To facilitate construction, GoldLinQ will implement the following traffic changes:

- Traffic lanes on the Gold Coast Highway will be realigned several metres to the west, between the Convention Centre and Victoria Avenue.
- Access from Queensland Avenue left onto the Gold
  - Coast Highway southbound will be permanently closed from 7 January 2013 (see map).

Gold Coast

Convention

and Exhibition

Centre

TE Peters Dr.

- Access into Queensland Avenue from the Gold Coast Highway southbound will be maintained at all times (see map).
- Permanent median installation will take place at Queensland Avenue.
- Alternative routes will be signed.
- Temporary single lane closures and traffic redirections may occur between 7:00am and 5:00pm.
- Pedestrian access routes will be maintained around the construction area. Temporary footpath closures near the active work area may occur and alternative routes will be signed.

## What to expect:

- Heavy machinery, such as excavation and crane movements to facilitate construction activities.
- Temporary service outages may occur and will be managed by the appropriate service provider.
- Affected premises will be notified prior to outages occurring in line with current legislated requirements.
- Selective vegetation removal to facilitate construction activities.
- Construction noise, dust and vibration at times. Every effort will be made to minimise these impacts.
- The majority of construction work will be carried out between 6:30am and 6:30pm, Monday to Saturday.
- Please note that construction works will cease in this area between 22 December and 6 January.

## Night works:

Night works will take place on the Gold Coast Highway to upgrade services that cross Queensland and Victoria Avenues. This work will be undertaken periodically at night to minimise the impact on traffic.

- Temporary lane closures and traffic redirections will occur between 7.00pm and 5.00am.
- Night works will be required as part of these works to minimise impacts on businesses, pedestrians and traffic. Affected businesses and residents will be notified in advance of night works.
- During night works vehicles will use "quacker" (quieter) style reversing alarms to reduce noise.
- Light towers will be placed to limit glare to nearby residences.

We apologise for any inconvenience and thank you for your patience during construction.
