

Smith Street night closures

Occasional east and westbound night time lane closures on the Smith Street Motorway between 7:00pm to 5:00am will continue in coming weeks. This is to install precast concrete parapet walls on the Smith Street Bridge.

For the safety of motorists while work is carried out overhead, partial and full closures will be required at various times for approximately three weeks.

Traffic changes:

- From Monday 25 March 2013, partial closure of the eastbound lane of the Smith Street Motorway between Olsen Avenue and Parklands Drive as required.
- From Wednesday 3 April 2013, full closures of the east and westbound lanes of the Smith Street Motorway between Olsen Avenue and Parklands Drive as required. Detours via Parklands Drive and Olsen Avenue will be available (see map).

What to expect:

- Detours via Parklands Drive and Olsen Avenue will be available.
- Temporary closures of the pedestrian and cycle track on the southern side of the Smith Street Motorway during lifting operations.
- Work will occur between 7:00pm and 5:00am Sunday to Thursday.
- Detours will be signed and traffic control will be in place.
- Heavy machinery and crane movements to facilitate construction activities.
- Temporary footpath closures, alternative routes will be signed.
- During night works vehicles will use “quacker” (quieter) style reversing alarms to reduce noise.
- Speed limits will be reduced around work areas.
- Occasional single lane closures of the Smith Street Motorway occurring in each direction will continue during the day from 9:00am to 3:00pm.
- Timing of this work is subject to weather conditions and construction constraints.

We apologise for any inconvenience and thank you for your patience during construction.
