

Admiralty Drive Track Laying

From Thursday 18 April 2013, works to lay rail across Admiralty Drive will commence and continue for up to 6 weeks.

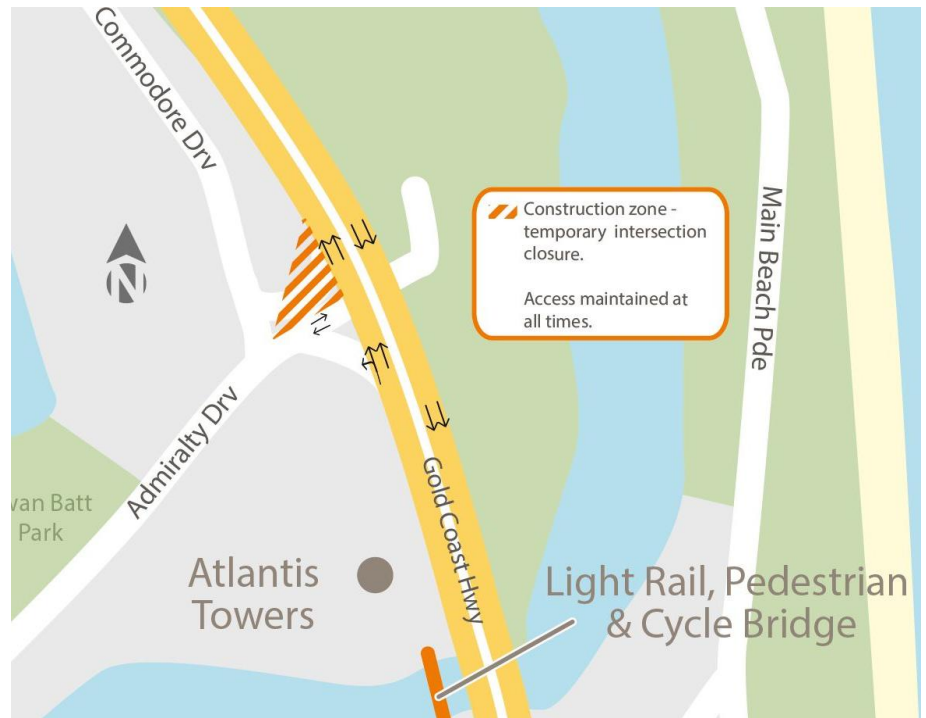

The rail, which comes in 18 metre lengths each weighing one tonne, will be laid along the western side of the Gold Coast Highway. Due to their size, the rail lengths must be delivered at night by an oversized vehicle.

Traffic changes:

Work will be undertaken in stages to maintain traffic flow. Each stage of construction will take approximately 3 weeks to complete.

During construction, north and southbound traffic access into and out of Paradise Waters will be maintained, however points of access may change.

Please drive to the conditions at all times during construction as points of access, temporary lane closures and changes to traffic flow will occur.

What to expect:

- Installation of safety barriers and fencing to contain the construction area.
- Heavy machinery, such as excavation and crane movements to facilitate construction activities.
- Construction noise, dust and vibration at times. Every effort will be made to minimise these impacts.
- Pedestrian access routes will be maintained around the construction area. Temporary footpath closures near the active work area will occur and alternative routes will be signed.
- The majority of construction work will be carried out between 6:30am and 6:30pm, Monday to Saturday.
- Timing of this work is subject to weather conditions and construction constraints.

Night works:

- Night works will be required as part of these works on Wednesday 17 April from 6:30pm.
- Further night works may be required as part of these works and affected businesses and residents will be notified in advance of night works.
- Rail delivery may occur between 7:00pm and 5:00am Sunday to Thursday.
- During night works vehicles will use “quacker” (quieter) style reversing alarms to reduce noise.
- Light towers will be placed to limit glare to nearby residences.
