

## Parking on the Gold Coast

Construction of the Gold Coast light rail has seen a number of changes to traffic and parking on the Gold Coast.

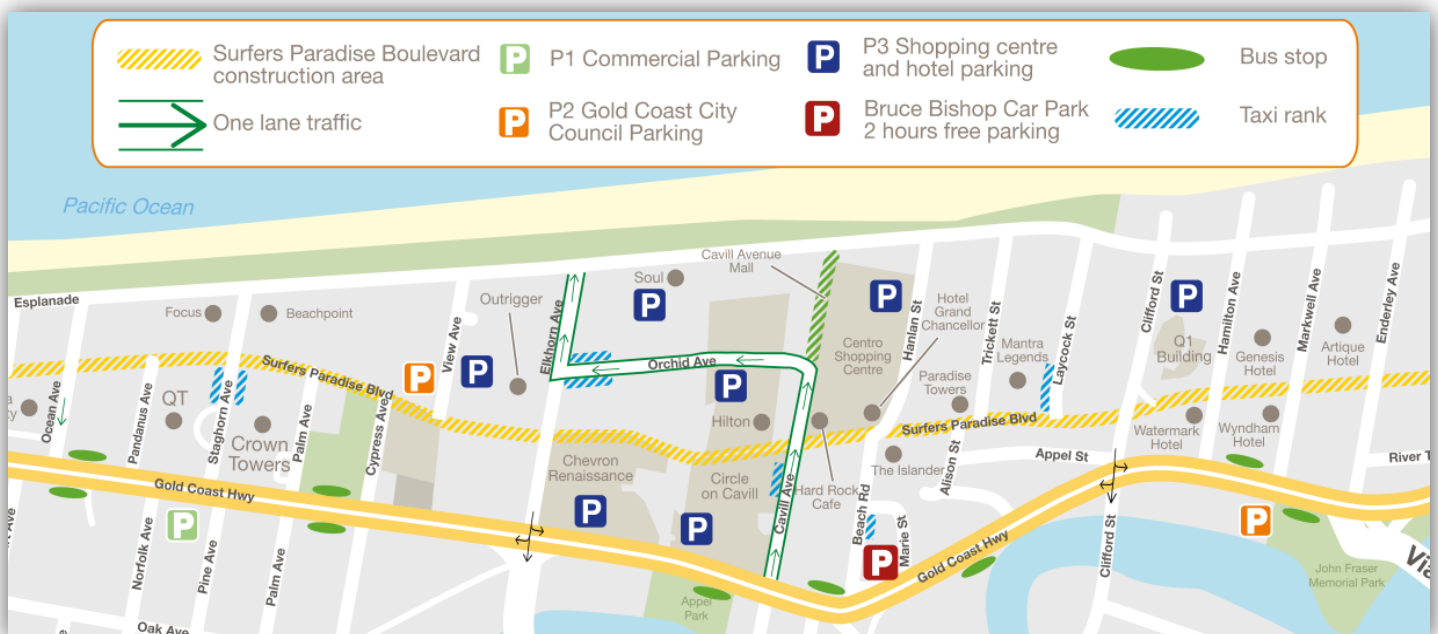

As track laying is completed and construction fencing is progressively removed ahead of tram testing, it is vital for vehicles to only cross tracks at signals or designated crossings.

Changing driver behaviour prior to tram operations commencing is vital for safety.

**Parking across tram tracks is illegal and unsafe.** A number of off-street parking alternatives are available across the Gold Coast (see maps).

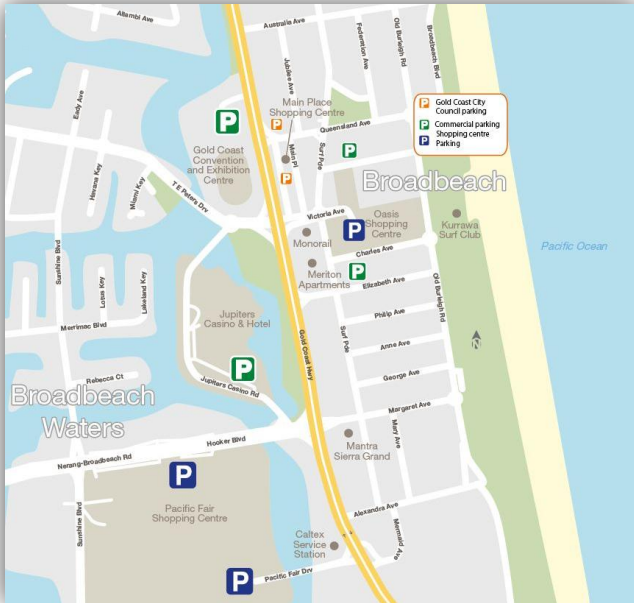

Penalties apply for illegal parking and should parking on tracks continue, GoldLinQ will be required to re-erect fencing in the interest of public safety. Vehicles parking across tracks risk City of Gold Coast parking fines and may be towed to ensure tracks remain clear.

GoldLinQ encourages local traders to inform their clientele and staff they are required not to park on tram tracks and to promote parking in the nearby commercial parking facilities shown on the maps below. Delivery drivers should only use loading zones.

## Stay safe

- Remember tracks are for trams. When driving only cross the tracks at designated intersections and never queue or park on the tracks.
- Never drive, park, walk or cycle along the tracks and always cross at designated pedestrian crossings. Always follow the current Queensland road rules around the light rail system.
- New signs and traffic signals will be installed to remind motorists and pedestrians they are now travelling alongside a light rail service.

### GET SET - Trams are now testing on the tracks

#### Follow the road rules

- Obey Queensland road rules, signs and signals when driving around the light rail system.
- Tracks are for trams - never queue across the tracks.
- Remember to U-Turn only where a U-Turn Permitted sign is displayed.

#### New traffic signs

Keep an eye out for new traffic signs being introduced across the city including:

**KEEP TRACKS CLEAR:** don't stop on the tracks as a tram may approach.

**WATCH FOR TRAMS:** when walking, cycling or driving always look out for trams.

**T TRAFFIC LIGHTS:** are for trams only you don't have to stop on a red 'T'.

#### Use designated crossings

Always cross the road and tram tracks at designated crossings points. Remember to look both ways before crossing.

#### Stay alert

Trams are quiet don't be distracted by music or your phone.

Pay attention to your surroundings and keep a safe distance from moving trams.
