

Safety during construction

Construction of Stage One of Queensland's first light rail system has now commenced.

GoldLinQ are committed to a zero harm philosophy meaning we ensure an environment in which we care for and protect our people, passengers and the local community. However safety is a two way street and the community should always exercise caution when travelling near a construction zone.

Look out for traffic controllers and signs to help you stay safe during construction.

Road safety

You can help to ensure the safety of yourself, your family, other motorists, pedestrians, cyclists and workers by:

- paying attention to road signs near construction projects
- planning your trip ahead
- keeping an eye out for road workers
- staying calm and being patient
- considering an alternate route
- expecting the unexpected: traffic conditions are likely to change regularly
- maintaining a safe distance between your vehicle and other vehicles on the road
- ensuring you are in the correct lane and merge as soon as possible to avoid last minute lane changes.

Pedestrian safety

You can help to ensure your safety and that of your family by:

- always walking on the footpath or designated walkway
- using designated crossings at all times
- if there are no designated crossing, signs or signals, pedestrians should give-way to all vehicles
- paying close attention to all posted signs - this will reduce the possibility of an incident
- avoiding going near a construction zone whenever possible
- never entering a construction site - heavy machinery and debris can be hazardous, and
- construction vehicles move quickly and suddenly - maintain a safe distance and always be prepared for sudden stops and wide turns.

Stage One is the 13-kilometre light rail corridor connecting Griffith University to Broadbeach, passing through the key activity centres of Southport and Surfers Paradise. You can keep up-to-date with the progress of the light rail works through the website at www.goldlinq.com.au or call the project hotline on 1800 967 377* and select the GoldLinQ option. Email us at information@goldlinq.com.au * Free call within Australia. Call charges may apply from mobile phones.
