## Broadbeach roadworks update

22 August 2011

**The following construction works are expected in the Broadbeach roadworks area over the coming months (weather and construction conditions permitting).**

From now until October 2011, nightworks will be conducted to install underground pipes and service conduits across the Gold Coast Highway at most intersections between Thornton Street, Surfers Paradise and Australia Avenue, Broadbeach. The work will occur at each intersection at different times for up to one week from 7pm to 6am Sunday to Thursday nights.

### Northern Zone: Gold Coast Highway between the intersections of Thornton Street and Armrick Avenue, Surfers Paradise.

- During August and September, the **Holiday North Apartments** (corner of Aubrey Street and Gold Coast Highway) are being demolished. These works are required as part of the property is located in the new road reserve.
- The temporary intersection closures will continue along the Gold Coast Highway at **Second Avenue** and **Wharf Road**. Wharf Road is expected to re-open in late 2011.
- The northbound bus stop on **Remembrance Drive** (opposite Thornton Street) has been temporarily relocated 50 metres south of its permanent location while works are undertaken to increase capacity of the current bus bay.

### Southern Zone: Gold Coast Highway between the intersections of Armrick Avenue and Australia Avenue.

- Roadworks continue along the eastern side of the **Gold Coast Highway** between Armrick Avenue and Australia Avenue, Broadbeach, to relocate services, reconstruct kerbs and footpaths and construct new road pavements.
- Work continues on the stormwater drainage system from **Cascade Gardens to Little Tallebudgera Creek**. Due for completion in late September 2011, this upgrade will improve the stormwater drainage capacity and mitigate against flooding in Broadbeach.

- Temporary intersection closures will continue along the Gold Coast Highway at **Britannia Avenue, Chelsea Avenue, Rosewood Avenue** and **St Kilda Avenue**. These intersections are expected to re-open in late 2011.

### Did you know?

- About 2700 metres of storm water pipes are being laid along the Gold Coast Highway in Broadbeach to protect the area against flooding.
