Additional Information

Further to section 6.3.1 of the Invitation for EOI, the State recognises that there are a range of potential operational periods that may deliver optimal whole of Project outcomes for all parties.

In consideration of the Future Stages and the potential impacts on elements of operations, the State is reassessing whether a more appropriate Operations Phase may be in the order of 10 to 25 years – for example 15 years. However, the State is also aware of a number of other value drivers, such as whole of life approaches for infrastructure and vehicles that need to be considered in determining the duration of the Operations Phase.
