

Gold Coast Rapid Transit

Full road closure of Mal Burke Street, Southport

March - April 2011

Works to install new water, wastewater and electrical services in Mal Burke Street at Southport will begin in early March 2011 and will involve intermittent full closures of the street.

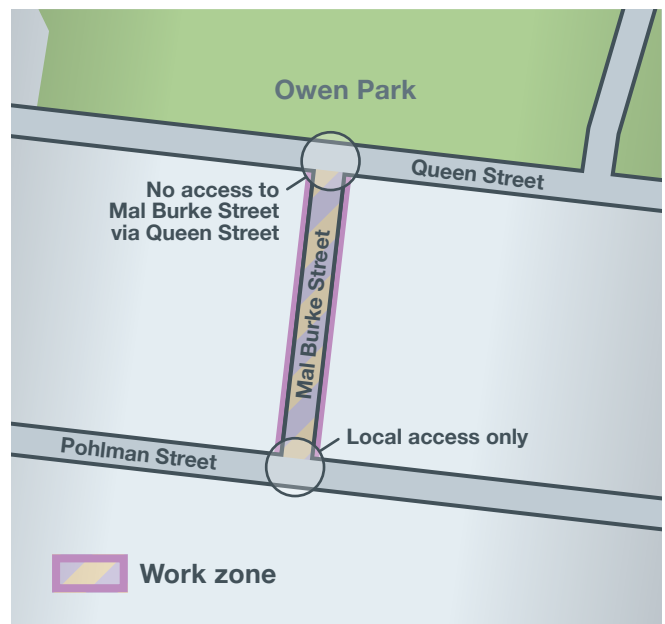

Works will involve:

- Installation of new water, wastewater and electrical services across a section of Mal Burke Street (refer to map).
- Excavation and laying of pipes and electrical conduits using open trench construction methods.

What to expect:

- Access to Mal Burke Street will be unavailable to general traffic from time-to-time while works are conducted. However, local access to residential properties will be maintained, with access available via Pohlman Street.
- All traffic changes will be signed and traffic controllers will be in place to direct motorists during the works.
- Access to driveways in the northern section of Mal Burke Street may be temporarily restricted from time-to-time. The project team will advise residents if temporary closures of driveways are required.
- Increased truck movements along Mal Burke Street and surrounding streets.
- The speed limit in the works zone will be reduced to 40km/h for the safety of roadworkers and motorists.
- Construction work will generally be carried out from 6.30am to 6.30pm Monday to Saturday, weather permitting.
- There may be some localised noise, dust and vibration during works.

All efforts will be made to keep disruption to a minimum. We thank you for your patience and cooperation.
