

Gold Coast Rapid Transit

Full closure of the entrance to Carey Lane, Southport

21 March - mid April 2011

Additional works to install new water and stormwater services in Carey Lane at Southport will begin on 21 March 2011 and will involve temporary full closure of the entrance to the street.

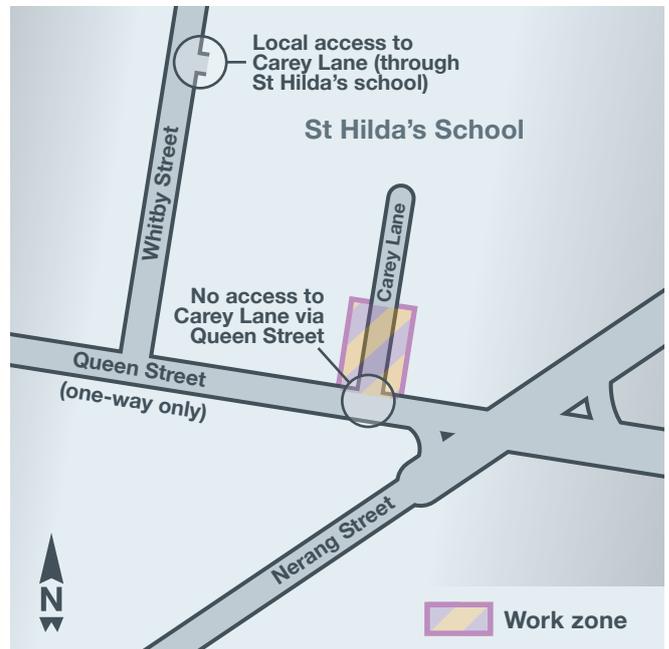

Works will involve:

- Installation of new water and stormwater services across a section of Carey Lane (refer to map).
- Excavation and laying of pipes using open trench construction methods.
- Construction of new manholes in Carey Lane.

What to expect:

- Access to Carey Lane from Queen Street will be unavailable while works are conducted. However, local access to properties will be maintained via Whitby Street (through St Hilda's School).
- All traffic changes will be signed and traffic controllers will be in place to direct motorists during the works.
- Access will remain open to existing church, childcare centre and residential parking in Carey Lane.
- Access to footpaths in the southern section of Carey Lane may be temporarily restricted from time-to-time.
- Increased truck movements in Carey Lane, Queen Street and surrounding streets.
- The speed limit in the works zone will be reduced to 40km/h for the safety of roadworkers and motorists.
- Construction work will generally be carried out from 6.30am to 6.30pm Monday to Saturday, weather permitting.
- There may be some localised noise, dust and vibration during works.

All efforts will be made to keep disruption to a minimum. We thank you for your patience and cooperation.
