## Southport roadworks

5 August 2011

The following construction works are expected in the Southport roadworks area in the coming fortnight (weather and construction conditions permitting).

### Zone 1: Queen Street (Wardoo Street to Nerang Street)

- Works to install a large diameter water pipeline along the northern side of Queen Street between Mick Veivers Way and Tweed Street are progressing. The pipeline is being installed using both open trench and tunnel boring construction methods.

From 8 August 2011 up to four weeks (depending on construction conditions), Carey Lane will be closed to all traffic while the water pipeline is installed across its Queen Street entrance. Alternative access for Carey Lane residents, business tenants and visitors will be provided via St Hilda's School's Whitby Street carpark.

- Wastewater connections are underway in Queen Street, between Beale Street and Southport State School, to connect recently installed wastewater pipelines to the existing network.
- The construction of new drainage culverts in Loders Creek, Fass Park and on the residential side of Queen Street (opposite Southport State School) is continuing.

### Zone 2A: Nerang Street (Queen Street to High Street)

- Major upgrade works are continuing at the Nerang Street / High Street intersection during the day, with kerb and channelling, subsoil drainage works, and the installation of new traffic signals currently underway.

Some temporary lane closures can be expected around the intersection from time-to-time.

### Zone 2B: Nerang Street (High Street to Davenport Street)

- On the southern side of Nerang Street, deep excavation works are underway to install a new water pipeline between High Street and Garden Street.
- Between Garden Street and Davenport Street, road profiling and kerb and channelling works are continuing.

### Zone 3: Queen Street (Lenneberg Street to Marine Parade via Ada Bell Way) and Scarborough Street (Queen Street to Park Lane)

- Works to install new underground telecommunications services on both sides of Scarborough Street between Park Lane and White Street are continuing until late August 2011. These works include two road crossings in Scarborough Street.
- Relocations of existing underground services in Matron and Sister Higman Park, Ada Bell Way and Queen Street are continuing.

Road crossings will occur from time-to-time to install some of the new underground services across Ada Bell Way and Queen Street. One lane of traffic will be maintained in each direction during these works.

- The project team has commenced works to rebuild the Southport Croquet Club greens.

All efforts will be made to keep disruption to a minimum. We thank you for your patience and cooperation.
