

# Gold Coast Rapid Transit

## Full weekend closure of the Queen Street / Nerang Street intersection

Friday 7 October – Monday 10 October 2011

**The Queen Street / Nerang Street intersection will be closed for continuous construction works between 6.30pm on Friday 7 October and 5.30am on Monday 10 October 2011. Traffic changes and detours will be in place around the intersection.**

### Works will involve:

- Stockpiling materials (eg. gravel), excavation, road re-levelling, asphaltting and line marking.
- Continuous works from 7 to 10 October 2011. This work is being done over one weekend to minimise disruption to nearby residents, businesses and the community.
- Construction of approximately 50m of stormwater pipeline along the northern side of Nerang Street from Cougal Street to the Pacific Private Clinic.

### What to expect:

- The Queen Street / Nerang Street intersection will be closed to traffic from 6.30pm on Friday 7 October until 5.30am on Monday 10 October 2011, weather permitting. Should weather or construction conditions prevent works from occurring at this time, works will be rescheduled for subsequent weekend(s).
- All traffic movements will be unavailable at the intersection during works, except for left turns from Nerang Street into Queen Street for northbound and southbound traffic (refer to map overleaf).
- Emergency vehicles and buses (routes 3, 20, 20A, 709 and 737) will be given priority and will travel through the works zone under traffic control. All other traffic will be required to follow detours provided around the intersection works.

A suggested alternative route for motorists that avoids the intersection is available via Whitby Street, George Street, Johnston Street, High Street, Ferry Road and Minnie Street.

- Motorists are asked to reduce speed and follow directions provided by traffic controllers / signage.

- The one-way westbound traffic arrangement on Queen Street between Nerang Street and Wardoo Street will be maintained during the intersection works.
- Local access to residential properties and businesses within the intersection exclusion zone will be maintained.
- Increased general traffic and truck movements can be expected on local streets during works.
- Traffic delays are expected around the intersection, particularly during peak periods. Motorists are advised to allow additional travel time during this weekend.
- Pedestrian and cycle movements will be restricted around the intersection during works. Pedestrians and cyclists are advised to avoid the intersection and seek alternative routes where possible.
- Localised noise, dust and vibration can be expected during these continuous works. These impacts will be regularly monitored and reduced wherever possible.
- The speed limit in the works zone has been reduced to 40km/h for the safety of roadworkers and motorists.

All efforts will be made to keep disruption to a minimum. We thank you for your patience and cooperation.
