

Gold Coast Rapid Transit

June 2011

Broadbeach Stormwater drainage upgrade works

From 20 June 2011 to late September, the stormwater drainage outlet system from Cascade Gardens to Tallebudgera Creek will be upgraded to improve the stormwater drainage capacity and mitigate against flooding in this area.

This work will involve an upgrade to an existing stormwater pipeline. To facilitate these works some previously disturbed shrubs and trees in Cascade Gardens, within a 7.9 metre wide corridor, will be trimmed or removed. At the completion of works, this area will then be re-vegetated. Please refer to the image below.

Hours of work are generally between 6.30am and 6.30pm Monday to Saturday; however timing of this work is subject to weather and construction conditions.

The project team would like to apologise for any inconvenience caused.

To stay up to date with traffic, parking and construction changes in your area:

- Call **1800 967 377** and select the Broadbeach roadworks option to speak to the project team
