

Gold Coast Rapid Transit

February 2012

Gold Coast Highway lane closure - Wharf Road to Remembrance Drive

Over the next three months we will upgrade and relocate stormwater pipes and public utility services along the Gold Coast Highway between Wharf Road and Remembrance Drive.

This work would normally occur at night, however, to minimise disruption to local residents from Monday 27 February 2012, we will close one northbound lane between 9.30am and 7.30pm Monday to Saturday so most of these activities can occur during daylight hours. It is important to note that some activities will still need to be completed at night. When night works are required, all efforts will be made to minimise disruption to the local community as much as possible.

Works will involve:

- Upgrading and relocating existing stormwater pipes and public utility services.
- The use of heavy machinery including excavation and asphaltting equipment and trucks.
- The use of temporary lighting (where night works are required).

What to expect:

- Traffic will be monitored and assessed to maintain an effective flow.
- At times, night works will be required to allow underground service relocations when demand for these services is at its lowest. Night works will also be required when we need to close both northbound lanes to conduct the work.
- Speed limits will be reduced to 40km/hour for the safety of motorists, pedestrians and construction workers. Traffic management will be in place to assist motorists.
- Some noise and other construction impacts may be experienced, however, every effort will be made to minimise disruption to the local community.
- Timing of this work is subject to weather and construction conditions.

The project team apologises for any inconvenience these works may cause.

If you have any questions about these works or other works in your area:

- Call **1800 967 377** (select option 1 and option 3) to speak to the project team
